FOUNDATION WATERPROOFING SYSTEM

# MAR-FLEX 5000 FOR BLOCK AND ICF WALLS

**mar-flex 5000™**

## Water doesn't stand a chance

With Mar-flex 5000 and its heavy duty, elastomeric emulsion waterproofing membrane, the result is a highly rubber-fortified waterproofing product with decreased permeability and increased durability.

Mar-flex 5000, solvent-based and water-based, is recommended for new construction waterproofing of all below-grade basement walls of poured concrete, unit masonry construction or ICF walls.

For block walls specifically: All joints must be struck and exterior walls parged to the top of the wall. All voids within the block must be core-filled with cement. All holes, cavities, and other voids must be sealed with hydraulic cement or non-shrink grout.

**Mar-flex 5000 (Water-Based)**
BGW-36152 – 5 Gallon Bucket Each or 42/Pallet
BGW-36154 – 55 Gallon Drum Each or 4/Pallet
BGW-36153 – 330 Gallon Tote
BGW-36159 – 6,000 Gallon Bulk

**Mar-flex 5000 (Solvent-Based)**
BGW-36155 – 55 Gallon Drum Each or 4/Pallet
BGW-36158 – 6,000 Gallon Bulk

## Product Advantage

- Produced from virgin materials of the highest quality
- Can be applied to any block or ICF wall
- Provides industry-leading waterproofing technology at an affordable price
- Able to resist freeze-thaw cycles while remaining flexible
- When used with GeoMat+, Mar-flex offers a 30-Year Platinum Limited Transferable Materials Only Warranty

## Accessories:

**GeoMat+ Drainage Board**
Must be used with Mar-flex 5000 (Solvent-Based or Water-Based) to complete the Mar-flex 5000 Exterior Below-Grade Waterproofing System
GM-48274 – 4' x 50'
GM-48270 – 8' x 50'

**Geo Clip**  GM-48277
500/Box

**Geo Profile**  GM-48280
50/Box
6'6" L
